

Ciscoh3C optical module compatibility

Overview

Link to compatibility matrix tool: [Click here](#). com The current compatibility matrix allows users, typically Cisco customers and sales, to determine what transceivers are supported in Cisco hardware devices such as switches/routers and line cards/modules. Cisco does not support third party optics. For the guideline on third party components, see Section 6 of Cisco's Non-Entitlement Policy. For ONS Family optics product and compatibility information, please [click here](#) For High-Density Fiber Patch Panel, Simplex, MPO and Breakout Cables Portfolio Data. Optical modules transmit signals over optical fibers. Optical transmission features low loss and is fit for long distance transmission. The information is displayed in a. The following table shows the available transceiver modules for interface modules, MPUs, subcards, and devices.
