

# Gabon s Three Bridges

## Overview

BESIX is delivering, in partnership with Matière and MBB, a transformative infrastructure project commissioned by the Gabonese government. The project aims to significantly improve mobility in Libreville and strengthen national transport connections. As BESIX continues its work in Gabon, the story of Ebel-Abanga illustrates a broader vision: engineering excellence paired with social responsibility. From innovative water solutions to health campaigns and education support, BESIX is building more than infrastructure. One of the most notable of these initiatives is the construction of a new road that will effectively link Gabon's. This category has the following 2 subcategories, out of 2 total. The country encompasses an area of approximately 267,667 km<sup>2</sup> (103,347 mi<sup>2</sup>). The Belgian contractor Besix and metal bridge company Matière have signed a provisional agreement to design and build two flyovers, four pedestrian bridges, and a steel road bridge in the Gabonese Republic, West Africa.
