

How to unbind the China Unicom pigtail code

Overview

The easiest way to solve this issue is to insert the sim into the device, get a pin and hold the RST button in for 10 seconds. When the device rebooted my sim was detected in slot #2 where it wasn't before. Once successfully complete registration, you will be able activate/use your SIM card even when are outside China. All SIM cards has international roaming feature turned on since day 1! Per China Unicom's policy, please activate the SIM card by inserting it into an unlocked mobile phone to connect. First do not put the SIM into the phone. Note: after done the unlock steps above, GSM network should available; but if you replace another new card, you must repeat the.
