

Industrial Internet Smart Energy Platform

Overview

Learn how Siemens Energy built an Industrial IoT platform to monitor production and energy usage and predict maintenance needs using AWS IoT managed services. Siemens Energy, a global leader in the energy business, continuously looks for solutions to enhance its industrial operations and support. Leverage an integrated Edge, industrial IoT and lifecycle analytics solution to collect operational data from the field, discover insights and merge the real and virtual worlds. What can an industrial IoT solution do for you?

Accelerating digital transformation requires IT/OT convergence and. Clever Energy is an award-winning enterprise-level energy and emission management system that helps commercial and industrial organizations be more sustainable, ensure energy and cost efficiency, and decrease carbon emissions. 0 era by bringing cloud computing technologies near the hardware.

Smart Factories using Industrial Internet of Things (IIoT) + Energy ...

Learn how smart factories use Industrial Internet of Things to boost energy efficiency, cut costs, and drive sustainable manufacturing.

Aug 01, 2025

Smart Energy Management with IIoT: Building a Carbon-Neutral ...

Leveraging the power of the Industrial Internet of Things (IIoT), SEM integrates advanced monitoring, data analytics, and automation to optimise energy consumption in industrial facilities.

Sep 02, 2025

IDC MarketScape: Worldwide Industrial Internet of Things Platforms ...

The IDC study evaluates the vendors in the Industrial Internet of Things (IIoT) platforms and applications for energy in 2025. It highlights the importance of data-driven decision-making, predictive ...

Smart Industrial Energy Management Solutions | Milesight

Enhance industrial energy efficiency with Milesight's LoRaWAN® IoT solutions. Real-time monitoring, predictive maintenance, and renewable integration for smarter manufacturing and utilities.

Jan 21, 2026

TCS Clever Energy™: Energy Management System for Better ...

Powered by Internet of things (IoT), artificial intelligence (AI) and cloud, Clever Energy has a strong data acquisition capability to connect heterogeneous operations technology (OT) and information ...

Sep 06, 2025

Siemens Energy Builds Industrial IoT Platform and Drives Smart ...

Learn how Siemens Energy built an Industrial IoT platform to monitor production and energy usage and predict maintenance needs using AWS IoT managed services.

Apr 27, 2026

How Siemens Energy uses AWS for its IIoT platform and smart ...

Siemens Energy is empowering its factories to achieve greater efficiency and sustainability through a standardized approach of integrating Internet of Things (IoT) data from ...

May 02, 2026

Industrial IoT-Based Energy Monitoring System: Using Data ...

In this research, we design, develop, and implement an IIoT and edge-based system to monitor the energy consumption of a factory floor's stationary and mobile assets using wireless and ...

Sep 23, 2025

Design and Implementation of Smart Energy Platform for Industrial ...

This paper proposes a smart energy platform for maximizing energy efficiency in industrial complexes. The smart energy platform collects and visualizes the proc.

Sep 30, 2025

Siemens IIoT platform solutions

Capture real-time data from your connected products, plants, machines and systems. Gain valuable insights, optimize operational efficiency, create high-quality, sustainable products and deploy new ...
