

Jordan Dust Explosion-proof Distribution Box Specifications

Overview

Certifications: ATEX, IECEx, and UKEX certified for Zones 1, 2 (gas) and Zones 21, 22 (dust). Durability: Waterproof and dustproof with IP65/IP66 ingress protection. Custom explosion proof distribution box suppliers are essential components in modern electrical infrastructure, designed to manage and distribute electricity safely and efficiently within various settings. What makes them different from standard distribution panels is their certified ability to operate safely in explosive. Ex Industries (exindustries) is a global supplier of advanced hazardous area solutions, offering a wide portfolio of certified products including explosion proof electrical boxes, explosion proof junction boxes, explosion proof lighting, intrinsically safe barrier systems, explosion proof cables. These are available in a range of materials including Stainless Steel, GRP & Sheet Steel from IP42 (Indoor) to IP 66 (Outdoor) Applications. The following are some common specifications and models of distribution boxes and their characteristics: 1. Low-voltage fixed switchgear GGD series: Mainly used in power industries such as substations and power plants, with high breaking. Flameproof enclosure (Ex d IIB+H2), which can be used as feed distribution equipment in control and distribution system (such as distribution box, switch box of main circuit, control box, terminal box or motor starting box etc.) ·Enclosure: stainless steel.
