

ODF fiber optic splicing price

Overview

For most commercial projects, expect to pay \$50-\$150 per fusion splice point - but that number can swing in either direction based on the factors below. Fiber optic splicing costs vary widely depending on project size, location, fiber type, and site conditions. The "per splice" rate is the most. Idk if that's usual but the ranges are : 1-24 splices 25-72 73-144 144+ Guys that are paid similar to this scale, how much should I be getting paid per range?

Thanks I usually bill T&M, but it works out to about \$175-250 for setup/teardown per site and \$4-7 per fiber for prep in a new tray in an. The cost of splicing fiber optic cables can vary significantly based on several factors, including the type of splice, the equipment used, the location of the job, and the expertise required. Understanding these factors can help businesses and individuals budget effectively for fiber optic. Would you like to tell us about a lower price?

The ODF indoor wall mount fiber optic enclosure is designed to provide a distribution point to feed a high capacity of fiber optic cables to other closets or zones. It can support patching for up to 48x SC fiber optic connections.
